Panerai fakes have flooded the market in the last two years. Currently there is more activity with copying this brand than any other with the exception of Rolex. These comparison shots are of earlier fakes. We'll be posting later shots of some of the newer more accurate replicas. The high-end Panerai fakes are difficult to spot if you're not familiar with the brand. Careful research is important if you're shopping on the second-hand market. Our Panerai Gallery has more photos and descriptions of these watches.
