

Cartier Comparison

Contributed by Richard Brown
Last Updated Wednesday, 05 December 2007

Replicas of Cartier watches have several outstanding flaws that have persisted for years. The most obvious flaw is the use of "electric blue" hands instead of the more subtle "blued-steel" hands that Cartier uses. This makes spotting most Cartier fakes fairly easy. If the hands are a bright blue then it's probably a replica.

Case and band materials are also of a poorer quality, making gold examples stand out like a sore thumb. Read more in the Replica Watch Report!
